

One Way

We yield to traffic caused by temptation than look for another way to avoid the aggravation.

Now we can't turn back so we
try to turn right thinking we
Should've followed those signs at that light.

Traffic starts to move but its
slow and still heavy and because we think we're getting somewhere we start yelling "WOULD YOU
GO ALREADY!"

We turn impatient and curse the situation that's keeping us from
reaching our profound destination.

So we start to wonder will we ever get there
more cars keep coming traffic will never clear!

We put the car in park thinking
we've made our bed because we can clearly see dead end up ahead.

we confess we were
wrong sitting in the car then see a turn on faith boulevard.

The sign said get
off at exit salvation and before we knew it we reached our destination.

You see
even with faith there'll be work ahead the Bible says faith without work is
faith that is dead.

You see the blessings we need are ready and waiting but we can't get to it because the short cuts we keep taking.

God is saying I'm
giving you direction when you choose to follow them you'll reach your blessing
when you choose to follow it pass on the lesson to those who are traveling with
no direction.

Follow my words there's no toll to pay I'm giving you direction
because there's only ONE WAY!
